

Nasıl Bir Deniz Feneriyiz?

Üniversitelerin, “kültürel sermaye”sinin başında kuşkusuz bilimsel araştırmalar ve bilimsel yayınlar gelir. Kültürel sermaye ne denli yoğunlaşmış ve ne denli geniş bir alana yayılmışsa, o üniversitenin keşif gücü o denli güçlü demektir. Keşif gücü diyoruz çünkü evrenin bilinmezlerinin karanlığında, bilimin keşfedebildiği ya da çözüp aydınatabildiği oranda yol almaktadır insanlık. Üniversiteleri deniz fenerine benzetenler de aynı özellikten yola çıkmış olmalıdırlar. Bilinmeyen karanlığını yarıp açan bilim ışığının toplandığı yerdir üniversiteler.

Kültürel sermayesini oluştururken üniversitelerin en önemli sorunu, neye bilim deneceği, neye denmeyeceği konusundaki bakış açılarıdır. Başka deyişle, bilimsel araştırma ve bilimsel yayın anlayışlarındaki evrensel düzeydir. Bu anlayışın öznelliğe, spekülasyona tahammülü yoktur. Bilimsel çalışmaların evrensel geçerlilik ve güvenilirlik ölçütlerine kavuşması, çağımızın büyük kazançlarından biridir. Çünkü 19. yüzyıldan bu yana dünyada bilimsel bir standart oluşturma çalışmaları giderek daha kesin, daha dakik ölçütler kazanmıştır.

Bilim ölçütlerinin yanı sıra bilimin merkezleri de değişmiştir. Artık merkez Batı değildir; ama merkez Doğu da değildir. Bilimin merkezi, bilim adamının özgürce çalışma ortamı bulduğu her yerdedir. Küresel çağın belki de tek güzel yüzü ve en büyük kazancı budur; bilim her yerdedir. Artık bir kutba öykünmenin ya da imrenmenin çağı kapanmıştır. Yeter ki bilgiye değer veren bir toplum, bilgiyi varlık koşulu sayan topluluk ve kurumlar ile bilgiyi üretmek için asgari düzeyde de olsa bir olanak var olsun. Bu durumda bilim insanının İbn-i Sina'nın acıyla söylediği gibi, değerbilmezlik yüzünden yurdunu terk etmesine gerek kalmayacaktır.

Ne mutlu ki ülkemiz artık bilim ülkesidir. Her zaman söylemekten büyük bir mutluluk ve gurur duyduğum gibi, odun ateşinin ışığından başlayıp lazer ışığına ulaşmıştır Türkiye. Bu konumdaki bir ülkede bilim insanının geçerli mazereti kalmamış olmalıdır. Artık bir mazeret arkasına sığınma çağı da kapanmıştır. Her fırsatta özellikle vurgulamak gereği duyduğum gibi, herkesin mazereti olabilir ama üniversitelerin mazereti hiçbir koşulda olamaz. Ülkemizin ve evrenin karanlığını aydınlatıp insanlığın yolunu açacak olanın üniversiteler olduğunu unutmamalıyız.

Başkent Üniversitesi'nin bilim politikası budur. Peki “Bilimsel pratiği nedir?” diye soranlara bütünlüklü bir yanıt verebilmek için elinizdeki kitabı hazırladık. Başka deyişle, dünyanın her yerinde geçerli olduğu gibi, uluslar arası indekslerce

taranan yayınların toplamı ve öğretim üyesi başına düşen sayısı, bir üniversitenin bilimsel pratiğinin ölçütüysen, bu ölçütün Başkent Üniversitesi'ndeki boyutları sunulmaktadır. Bu kitapçıktaki Başkent Üniversitesi adresli, 2007 yılında Citation indeksleri (Science Citation Index, Social Sciences Citation Index ve Arts & Humanities Citation Index) kapsamlı yayınların künyeleri, yayımladıkları dergilerin TÜBİTAK'a göre grupları ve türleri akademik birimler bazında verilmektedir.

Bu kapsamda 2008 Ocak ayı başı itibarı ile, Science Citation Index Expanded'da (SCI-exp) 621, Social Science Citation Index'te (SCCI) 32 ve Arts and Humanities Citation Index (AHCI)'te 1 yayın olmak üzere toplam 654 yayın bulunmaktadır. Bu yayınların türlerine bakıldığında SCI exp'da 446 ve SSCI'te 27 ve AHCI'de 1 olmak üzere toplam 474 full makale bulunduğu görülmüştür. Ancak 13 makalenin hem SCI hem de SSCI tarafından taranmış olması dikkate alınarak gerçek makale sayısı 461 olarak kabul edilmiştir. Bu durumda 2007 yılı içinde öğretim üyesi başına düşen full makale sayısı 1.12 olmaktadır.

Veriler arasında 2006 yılında yayımlanmış az sayıda eser de yer almaktadır. Bu yayınlar, 2006 yılı içerisinde Web of Science kapsamına girmediğinden ve 2006 yılı verilerle yapılacak taramalarda yer almayacağından, 2007 yılı listesinden çıkarılmamıştır.

Bilimsel çalışma göstergelerini bir kitapta toplayıp ilgiye sunmak, bundan sonra düzenli sürdüreceğimiz bir çalışma olacaktır. Çünkü üniversitelerin “kültürel sermaye”lerinden ve yetiştirdiği öğrencilerinden başka övüneceği pek bir şeyleri yoktur. Övünce de gerek yok aslında, sonuçta bu çalışmalar ülkemize olan borcumuzu ödeme biçiminden başka bir şey değildir.

İnanıyorum ki, üniversitemiz ve bilim insanlarımız, fazladan bir şeyi değil, yalnızca kendi görevlerini hakkıyla yaptıklarında, ülkemizin dinamizmi değişecek ve çağdaş uygarlık çizgisine ulaşmamız, dahası onu da aşmamız zor ya da uzak olmayacaktır.

Prof. Dr. Mehmet Haberal
Rektör
