# CITATION INDEX YAYINLARI

BAŞKENT ÜNİVERSİTESİ

# Uluslararası Bilimsel Yayınlarımız

Üniversitelerin en önemli görevi kuşkusuz uluslararası bilimsel araştırma ve yayın yapmaktadır. Bilimsel çalışmaların evrensel geçerlilik ve güvenilirlik ölçütlerine kavuşması, çağımızın büyük kazançlarından biridir. Çünkü 19. yüzyıldan bu yana dünyada bilimsel bir standart oluşturma çalışmaları giderek daha kesin, daha dakik ölçütler kazanmıştır.

Bilim ölçütlerinin yanı sıra bilimin merkezleri de değişmiştir. Artık merkez Batı değildir; ama Doğu da değildir. Bilimin merkezi, bilim adamının özgürce çalışma ortamı bulduğu her yerdedir. Küresel çağın belki de tek güzel yüzü ve en büyük kazancı budur; bilim her yerdedir. Artık bir kutba öykünmenin ya da imrenmenin çığı kapanmıştır. Yeter ki bilgiye değer veren bir toplum, bilgiyi varlık koşulu sayan topluluk ve kurumlar ile bilgiyi üretmek için asgari düzeyde de olsa bir olanak var olsun. Bu durumda bilim insanının İbn-i Sina'nın acıyla söylediği gibi, değerbilmezlik yüzünden yurdunu terk etmesine gerek kalmayacaktır.

Ne mutlu ki ülkemiz artık bir bilim ülkesidir. Her zaman söylemekten büyük bir mutluluk ve gurur duyduğum gibi, Türkiye odun ateşinin ışığından başlayıp lazer ışığına ulaşmıştır. Bu konumdaki bir ülkede bilim insanının geçerli mazereti kalmamış olmalıdır. Artık bir mazeret arkasına sıçınma çığı da kapanmıştır. Her fırsatla özellikle vurgulamak gereği duyduğum gibi, herkesin mazereti olabilir ama üniversitelerin hiçbir koşulda mazereti olamaz. Ülkemizin ve evrenin karanlığını aydınlatıp insanlığın yolunu açacak olanın üniversiteler olduğunu unutmamalıyız.

Başkent Üniversitesi'nin bilim politikası budur. Peki "Bilimsel pratiği nedir?" diye soranlara yanıt verebilmek için elinizdeki kitabı hazırladık. Uluslararası indekslerce taranan yayınların toplamı ve öğretim üyesi başına düşen sayısı, bir üniversitenin bilimsel pratiğinin ölçütüse, bu ölçütün Başkent Üniversitesi'ndeki

boyutları bu kitapta sunulmaktadır. Bu kitapta Başkent Üniversitesi adresli, 2008 yılında Citation indeksleri (Science Citation Index, Social Sciences Citation Index ve Arts & Humanities Citation Index) kapsamlı yayınların küneleri, yayımlandıkları dergilerin TÜBİTAK'a göre grupları ve türleri akademik birimler bazında verilmektedir.

2009 Ocak ayı başı itibarı ile üniversitemiz kaynaklı tam makale (527), meeting abstract (119), proceedings paper (53), letter (42), review (18), editorial material (12), book review (3), theater review (2), correction (1) ve reprint (1) olmak üzere toplam 778 yayın yapılmıştır. Bunların indekslere dağılımı, Science Citation Index Expanded'da (SCI-exp) 755, Social Science Citation Index'te (SCCI) 31 ve Arts and Humanities Citation Index (AHCI)'te 6 yayın olmak üzere toplam 792 yayın bulunmaktadır. Bu yayınların dökümüne bakıldığından; SCI-exp'da 509 ve SSCI'te 27 ve AHCI'de 1 olmak üzere toplam 537 tam makale bulunduğu görülmüştür. Ancak 10 makalenin hem SCI, hem de SSCI tarafından taranmış olması dikkate alınarak gerçek makale sayısı 527 olarak kabul edilmiştir. Bu durumda öğretim üyesi başına düşen tam makale sayısı 1,13 olmaktadır.

Bilimsel çalışma göstergelerini bir kitapta toplayıp ilgiye sunmak, bundan sonra da düzenli südüreceğimiz bir çalışma olacaktır. İnanıyorum ki, üniversitemiz ve bilim insanlarımız, fazladan bir şeyi değil, yalnızca kendi görevlerini hakkıyla yaptıklarında, ülkemizin dinamizmi değişecek ve çağdaş uygurlık çizgisine ulaşmamız, dahası onu da aşmamız zor olmayacağındır.

Prof. Dr. Mehmet Haberal
